PROFILE INFO

As an aspiring **Front-end developer** | I am passionate about creating engaging and interactive web experiences that delight users. I have recently completed a comprehensive course in front-end development, where I gained hands-on experience in **HTML, CSS, and JavaScript, React.**

WORK EXPERIENCE

IELTS teacher

11/2019 - 04/2021

- Cultivated welcoming learning environments in both classroom and online context.
- Developed lectures and assignments centered on literary analysis and writing fundamentals.
- Interpreted literature and essays in context with modern technology to promote critical thinking.

Leader (volunteer) of National Library

11/2019 - 04/2021

- Leading speaking club.
- Attracting students to learn English and Programming language.
- Working with library team.

ENGLISH TEACHER

08/2021 - 10/2021

- Interpreted literature and essays in context with modern technology to promote critical thinking.

Portfolio 3D

02/2023 - 02/2023

First project that I used 3d models so it can have some bugs | **Reactjs, Tailwind, Thirdjs, Canvas** | still working on the project.

Space Tourism

01/2023 - 02/2023

Mainly in this project I used **HTML SASS and JavaScript** | **Responsive Leading, Grid, Flex Sass** | I worked with difficult layouts.

Gpt-App

01/2023 - 02/2023

Project made for only practicing purpose | **React, Sass, Figma design** | completed layouts.

NOTES

I showed some projects which I have completed or contributing recently. However, I have a lot more projects. Please, do not hesitate to visit my website, github or front-mentor profile. **You are welcome to give feedbacks!**
